RECORDED

A.D. 1884, 10*th* JULY. N° 10,019.

Improvements in the Manufacture of Biscuits, Cakes, Bread, and Farinaceous and other Foods.

PROVISIONAL SPECIFICATION.

We, JOHN WILLIAM HOFFMAN, of 54 Junction Road, London, N. in the parish of St. Mary, Islington in the County of Middlesex, Gentleman, and PETER ERBACH, of Junction Road, London N. in the same parish and county, Baker, do hereby declare the nature of our invention for "IMPROVEMENTS IN THE MANUFACTURE OF BISCUITS, CAKES, BREAD, AND FARINACEOUS AND OTHER FOODS" to be as follows:—

Our said "Improvements in the manufacture of biscuits, cakes, bread and farinaceous and other foods" consist in rendering the same more valuable, nutritious, and sustaining by the addition thereto or to any materials employed in the preparation thereof at the commencement or at any subsequent stage of the said manufacture of any suitable quantity or proportion of the leaves, twigs, or other part or parts of the plant known to botanists as the "Erythroxylon coca" or other variety of "Erythroxylon" either in the fresh or dried condition or by the addition to the said foods or to any materials employed in the preparation thereof of any suitable quantity or proportion of any extract, decoction, infusion combination or other form or preparation of the leaves, twigs, or other part or parts of the said "Erythroxylon" plant or varieties thereof.

Dated this 10th day of July 1884.

JOHN WILLIAM HOFFMAN.
PETER ERBACH.

Improvements in the Manufacture of Biscuits, Cakes, Bread, and Farinaceous and other Foods.

COMPLETE SPECIFICATION.

We JOHN WILLIAM HOFFMAN of 54 Junction Road Gentleman and PETER ERBACH of Junction Road Baker Islington Middlesex do hereby declare the nature of our invention for "IMPROVEMENTS IN THE MANUFACTURE OF BISCUITS, CAKES, BREAD AND FARINACEOUS AND OTHER FOODS" and in what manner the same is to be performed, to be particularly described and ascertained in and by the following statement:—

Our Invention relates to improvements in the manufacture of biscuits, cakes, bread and farinaceous and other foods, whereby we render the same valuable nutritious and sustaining by the addition thereto, or to any materials employed in the preparation thereof, at the commencement or at any subsequent stage of the said manufacture, of any suitable quantity or proportion of the leaves twigs or other parts of the plant known to Botanists as the "Erythroxylon" Coca" or other variety of Erythroxylon, either in the fresh or dried condition, or by the addition to the said foods, or to any materials employed in the preparation thereof, of any suitable quantity or proportion of any extract,—decoctions, infusion, combination or other form or preparation of the leaves twigs, or other part or parts of the said Erythroxylon plant, or varieties thereof.

Having now particularly described and ascertained the nature of our said invention and in what manner the same is to be performed we declare that what we claim is

In the manufacture of biscuits, cakes, bread, and farinaceous and other foods, the incorporation or admixture therewith of the Erythroxylon Coca or other variety of Erythroxylon in any suitable form.

Dated this seventh day of April 1885.

JOHN WILLIAM HOFFMAN.
PETER ERBACH.
